 THE APPRAISAL OF CONTENT IS TENTATIVE.
 (FOR KEY SEE REVERSE)

1. A gasoline depot¹ guarded by artillerymen is located 50 meters to the south of Sarantsi (N 42-44, E 23-46). A railway line is under construction. The half which is completed is 100 meters west of the station and leads to the depot which is comprised of the following:
 - a. Seven buildings on a north-south line in the eastern sector of the depot; the southernmost building which is much larger than the others has two metal chimneys about 15 meters high and 50-80 centimeters in diameter;
 - b. Two large buildings, approximately in the center of the depot, in front of which is a loading platform, apparently the terminal point of the railway under construction;
 - c. Six elevated tanks with an approximate capacity of 400-500 hectoliters; and
 - d. A trench for an underground pipeline bordering the line of buildings on the east side is in process of excavation.
2. A sketch of the gasoline depot described above is included as an Appendix on page 2.

25X1

Comment: This depot may also contain munitions.
